*I am a web developer with a focus on PHP with various frameworks such as Codeigniter and Laravel. I've been a developer for over 1 year. In addition, I like destroying the ancient and rampaging my opponent in the MOBA world.*

## Technical Skills

**Likes:** php html css unity3d javafx codeigniter laravel reactjs wordpress  
**Dislikes:** react-native-android

## Education

**Bachelor of Science in Information Technology** – Holy Child College of Davao 2016 → Current

Going to college helped me to widen my range of knowledge and gather experiences through various discipline, such as front end and back end development, photo editing, video editing, and many more. I am now focusing with web development using PHP with various framework such as laravel and codeigniter.
